

# POSTPUNCHER

Warwick Gates  
Pty Ltd

Easy To Operate And Cost Effective

## POST PUNCHER Is the safest on the market

Only fully enclosed post driver reducing OH&S hazards.  
 Impossible for bystanders or workers to be injured from falling hammer when operated in accordance with manufacturers instructions.  
 Unique safety collar stops driving weight becoming free of machine.  
 Front End Mounted - full vision of post.  
 Operates from the protection of your cab where there's less chance of injury!  
 No reversing on the job.  
 A bright steel driving weight enclosed in a steel tube to allow safe operation in any conditions and a forward mount capability.

## POST PUNCHER Is the most versatile on the market.

The most versatile, effective and durable post driver in the world. The POSTPUNCHER range has been designed with a number a ground breaking features.  
**POSTPUNCHER** can be fitted to any tractor, front end loader, tele handler, excavator, skid steer or back hoe.  
**POSTPUNCHER** allows operators to drive posts in angles of 45 degrees and upwards.  
**POSTPUNCHER** is incredibly versatile and robust. It can be operated on slopes, in bush over hedges or existing fences, on river banks and over ditches.  
**Versatility and ability** to drive a post where you struggle to walk.  
 Works easily in difficult terrain.  
 Can drive any length post, on any angle with no height restrictions.  
 The most efficient post driver on the market as you don't leave your seat.  
**POSTPUNCHER** can be transported unattached and connected on site,  
 Easy to connect and remove from existing machinery. No need for dedicated parent machine.

## POST PUNCHER Is the most cost effective on the market.

Through overall efficiency and reduced capital outlay compared to traditional rear mounted post driving implements.

Which model suits your machine?

Model No.	Specifications					
	Outside Tube	Inside tube	Post size	Hammer weight	Tube length	Overall weight
PP1	215.7mm	203mm	200mm	65kg	1500mm	140kg
PP2M	245mm	230mm	230mm	85kg	1500mm	175kg
PP2	245mm	230mm	230mm	110kg	2000mm	210kg
PP3	318mm	306mm	305mm	200kg	2300mm	385kg

**Remember!** A bigger weight is only effective once it has reached its maximum drop speed & distance.

The **POSTPUNCHER** makes every hit count by falling the same distance every time.
